

FOR IMMEDIATE RELEASE

**NUDO PRODUCTS INTRODUCES FIBERSCORE™ FRP PANELS:
A SUPERIOR ALTERNATIVE TO CERAMIC TILE**

SPRINGFIELD, Illinois (March 7, 2016) – Nudo Products, a national wall and ceiling manufacturer headquartered in Springfield, IL, announced today its launch of FiberScore™ FRP, a fiberglass panel that provides a superior visual appearance without the hassle associated with ceramic tile. Compared to traditional ceramic tile, FiberScore FRP panels install easily and at a minimal cost. By offering a cost effective and performance driven alternative to ceramic tile, Nudo Products is revolutionizing the way contractors and architects traditionally cover their walls.

The innovative Sani-Coat seals the groove of each FiberScore FRP panel, which offers several advantages over ceramic tile grout lines.

Features & Benefits of FiberScore FRP:

- Resists staining, scratching, mold and mildew and won't crack or deteriorate like ceramic tile grout lines
- Provides outstanding impact resistance due to fiberglass core
- Costs less installed than most ceramic tile
- Wipes clean easily with standard cleaning solutions - no brushing or scrubbing needed
- Meets USDA/FSIS requirements
- Meets ASTM D3273-94 and D3274-95
- Available in Class III/C Fire-rating
- Complementary PVC trims and corner guards available

The introduction of FiberScore FRP to Nudo's line of products is a true testament to their commitment to providing wall and ceiling products that deliver on performance and aesthetics. To learn more about Nudo and view a full list of products, please visit nudo.com

About Nudo Products, Inc.

Nudo was founded in 1954, with headquarters in Springfield, IL, and was acquired in 2015 by Grupo Verzatec, an international company with headquarters in Monterrey, Mexico. Grupo Verzatec is one of the largest suppliers of laminated wall and ceiling panels for the commercial construction market, including both interior and exterior architectural panels. Nudo's building products sector consists of ceiling, wall, floor and exterior architectural panels. Their focus on responsiveness and consistency has earned Nudo a leadership position in producing panel products with a variety of substrates, such as plywood, oriented strand board (OSB), gypsum, composites and finishes, such as aluminum, high-pressure laminate (HPL), Fiberglass (FRP) and high-density polyethylene (HDPE). Over the years, Nudo has grown to become one of the largest laminators in the United States. For more information on Nudo's products, please visit www.nudo.com
