

NUDO STRUCTURE CORE™

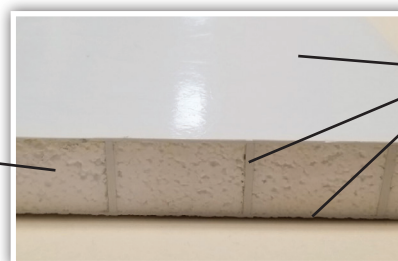

SUPERIOR STRENGTH TO WEIGHT RATIO

NUDO Structure Core panels are one of the strongest strength to weight ratio panels in the market today. Our patent pending layered core configuration can be modified to meet the area strength desired within the panel area, as well as thickness and skin selection.

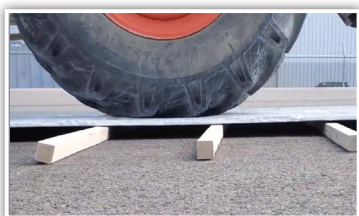

FEATURES & BENEFITS

- **Fiberglass Reinforced Plastic laminated to two sides**
- **Composite/EPS lightweight core**
- **Easy to clean**
- **Durable**
- **Panel sizes: 4'x8', 4'x10'**
- **Available in various thicknesses**
- **Flexible design to meet performance**
- **Superior strength to weight ratio**
- **Great price point**
